

Help us actively shape the future of digital intralogistics!

SEP Logistik AG is a medium-sized IT company in the Bavarian Alpine foothills (Miesbach district) with around 50 employees. Our products are solutions in the areas of intralogistics, inventory optimization and internal material flow based on our program package, the RELAG System[®]. With over 200 systems installed throughout Europe, the company is one of the leading providers in the areas of forklift control and warehouse management systems.

We are looking for someone to strengthen our team starting September 1st, 2024

Trainee IT specialist (m/f/d)

Are you interested in IT, software and hardware, do you enjoy working in a team and would you like to finally earn your own money? Then come and join our team!

Your area of responsibility

- Supporting the technical team with installation, configuration, commissioning and maintenance of IT and network systems
- Finding solutions and helping to resolve any problems that may arise
- Integration of hardware and software components in customer projects
- Various internal project work on the conception, documentation, expansion and maintenance of computer systems / networks

Your profile

- Successful secondary school leaving certificate or Abitur/Fachabitur
- You are helpful and approach new topics proactively
- You are sociable and team-oriented
- Affinity and enjoyment of technology and IT
- Openness to new areas of knowledge
- Ready to get to the bottom of things
- Independent and creative

Our services

- Development opportunities within the company, option to be taken on after training
- Good working atmosphere, creative freedom and independent work in a flat hierarchy with short decision-making processes
- Subsidy for travel expenses to vocational school
- Support with exam preparation
- Extra-company activities (sports/company celebrations)

We offer you an exciting path, supported by a strong team. We believe you can achieve great things - and look forward to receiving your application!
